Ingwe Option in 2017

Ingwe Any hospital &
Ingwe Active Primary
Care Network

1

Access to **any** private hospital or day care facility

On the Ingwe Any hospital option, we do not limit your access to specific hospitals - you have full freedom of choice when you need major medical cover the most. Netcare 911 provides medical emergency transport in South Africa to our members.

2

Unlimited visits to **any** doctor on the Ingwe Active Primary Care Network

You may visit any doctor on the Ingwe Active Primary Care Network. We also do not place a limit on the number of times you may visit the doctor.

3

Pay only the first **R100** for casualty / out-of-network doctor / specialist visits / physiotherapy treatment

You only pay a R100 flat fee for the visit. Remember that you need to pre-authorise for this benefit and the visits are limited based on your family size.

4

Comprehensive cover for healthcare treatment out of hospital

The Ingwe Active Primary Care Network doctor is your starting point if you need medication, blood tests or x-rays. Visit the optometrists and dentists on the Ingwe Active Primary Care Network if you need glasses or dental care.

5

More **unique** benefits

One of the reasons why Momentum Health's Ingwe Option is preferred by students is that, unlike similar options available in South Africa, for members, we cover chest x-rays for student visa requirements. It also provides cover for a free health assessment at any Clicks or Dis-Chem pharmacy. Plus we will also cover your injuries when you participate in sporting activities.
